GLADES GUARD UNIT LEAVES SATURDAY A.M. FOR TWO WEEK FIELD TRAINING

Some 29 Glades citizens will leave their daily work two weeks for a journey to Fort Lee, Virginia, where they will undergo training and schooling in their particular phases of soldiering — telephone and teletype, radio, quartermaster mechanics, vehicle mechanics, pipeline operations, food transportation, storage and many other specialized subjects.

Lieut. W. R. Hutton of Pahokee Commanding Officer and Lieut. J. C. Morris of Indianwood are officers assigned to the unit which has two pipeline platoons of the 149th QM Co. — Pet. Dept. and one platoon of the 131st QM Co. — Pet. Dept.

The regular army will furnish instructors and all training will be according to their rules. As the Fort is in the vicinity of civil war battle grounds, our boys will have opportunities to visit many of these. The Army will furnish bus transportation to Washington D. C. for visits to the White House, Washington and Lincoln Memorials, The Capitol, Smithsonian Institute and the Library of Congress. Liberty will be available for visits to other places of their choice.

The unit has been working for weeks getting ready for the trip. On Sunday, July 16 the unit met for the final drill and issued field equipment and clothing. They also packed all other equipment and began preparations for loading. By 10 a. m. Saturday, July 22 the unit will be on its way. These are the men who will participate in the summer field training.

Critical Time For Polio Attack

Take Salk Vaccine

The national foundation which has sponsored research into Salk live-virus as well as Salk vaccine, says "no live-virus vaccine has yet been licensed for distribution" and will not be before the present "season" of polio, "there is only one course of action for conscientious parents to pursue — get your family started on a full series of Salk shots TODAY."

The controversy over the relative merits of the two will be settled by scientists later, and there's apparently no excuse for delaying the preventative measures possessed by Salk's

Credit Account Sales Tax Due When Sale Made

Comptroller Green notifies the public that he has made a modification in favor of the dealer-taxpayer concerning credit and installment sales tax.

The ruling as now revised continues unchanged the amount of proportionate credit or refund of taxes remitted on returned merchandise, bad debts, repossessions and uncollectible accounts.

The dealer must collect and remit the full tax on each transaction at the time of the sale. Later, if any part of a credit or installment sale is not collected, the dealer may receive credit or refund at 3 percent of the unpaid balance upon proper proof and in accordance with the 18-month statutory period of nonclaim, less proportionate credit taken on original remittance.

Everglades Life Underwriters Discuss Year's Programming

President Carl Waggoner conducted the monthly meeting of Everglades Life Underwriters held Wednesday noon at Ray's Smokehouse, and led a discussion of programming for the year.

The formation of the LUTC school for the area was considered and tentative membership noted. The school this year is under the supervision of Mr. E. J. "Any Insurance man who expects to further his career and make Life Insurance his life work will not fail to enroll in this school," Mr. Carlton pointed out.

The school last year graduated six Belle Glade men: J. V. Gummers, L. K. Hardman, Ray Kent, Joe Leavitt, Lennie Shuckey and Chester Mullis.

Several of these agents will enroll in advanced educational courses in Life Insurance Underwriting this year, it was announced.

The members voted unanimously to honor all past presidents of Everglades Life Underwriters with a plaque commending them on their devoted service to the club.

What Is America's favorite hymn?

The Belle Glade Herald today joins Christian Herald, the nation's largest interdenominational Protestant magazine, and newspapers throughout the country, in a definitive survey to determine the hymns America loves best.

An Open-End Mortgage Is It 40 Or 80%?

The Farm Journal says, "every person in the US has been mortgaged nearly \$4,100 worth — before any of the current legislation is passed."

The Journal also says, "The US government has lived with its income just six times in the last 30 years."

"All this," says the Journal, "can mean only that your dollars will buy less and your taxes will go up."

There's some satisfaction in knowing that somebody figures everybody in the US can repay a \$4,100 mortgage, with more possibly added.

East Coast Dentists Support Fluoridation

Dr. Victor Mulberg, one of 726 dentists forming the East Coast Dental Society gives us a copy of the address of the President in which he says "The health professions and we dentists in particular, must prepare for battle against those who would deny the benefits of fluoridation to our children."

The Dental President also said "the city of Belle Glade and the Greater Miami area are the only cities in our district presently fluoridated."

Palm Beach County shippers and receivers interests will be represented this week when the southern Shipper and Receiver Council meets in Miami on July 20-21, 1961.

James W. Lee, director of the Palm Beach County Freight Traffic Bureau and one of the six shipper members of the Executive Committee of the Council, will, as the Council's representative, be in the Council's restricted to representatives of shippers or motor carriers holding positions in their firms that will permit binding discussions for the company.

Caro said that an attendance of about 150 persons from the eleven Southern states comprising the Council area are expected.

Council meetings are designed to encourage free and open discussion of all matters affecting the transportation of property by motor carriers and the subsequent solution of mutual problems.

At the Chattanooga meeting, the Chairman said, there will be a panel discussion on the subject of "The Grey Area in Transportation." Caro said that this discussion was of extreme importance to Florida Shippers and Receivers because it deals with unregulated and sometimes unlawful truck transportation.

Florida shippers and receivers are more exposed to these practices he said, because of the great quantity of unregulated freight such as fruits and vegetables.

Herald's Favorite Hymn Poll

(Continued From Page 1)

survey aims at settling the dispute. The National Newspapers Hymn Poll is open to Americans of all denominations. Every reader of The Herald is invited to write the name of his favorite hymn or gospel song on the ballot provided with this article. In appreciation, The Belle Glade Herald and Christian Herald will give each respondent the inspiring miniature book, "Hymn Thoughts for the Day," by Bill McVey, the Christian Herald Singer. This attractive book contains hymns and scripture reading for every day of the month.

Our local hymn pool is an important part of the nationwide survey. The National Newspapers Hymn Poll is being conducted by newspapers in cities of all sizes in every state. Its purpose is to find out which hymns The Belle Glade Herald readers (and Americans everywhere) enjoy singing—listening as well as to encourage hymn singing in homes and churches throughout the country.

Hymn singing has been a dynamic force for American family and community strength since colonial days. For some years after the end of World War II, however, interest in hymn singing declined. But as a result of Bill McVey's Christian Herald Hymn Revival Program, 1960 saw a tremendous revival of hymn singing in America.

Under the direction of Rev. Daniel A. Poling, editor of Christian Herald, hymn singing with Bill McVey have been held in many states, attracting audiences as large as 6,500 people. The Belle Glade Herald and Christian Herald believe the family that sings together lives in greater harmony. Hymns selected by readers of The Belle Glade Herald and readers of newspapers across the country in the National Newspapers Hymn Poll will be the religious songs that have had the greatest personal meaning to them since childhood.

Belle Glade Boys Win High Honors Camp Ridgecrest First Session Ends

Three Belle Glade boys received honors out of the eight given in a colorful program carrying out the Indian theme last Wednesday night at Camp Ridgecrest, N. C., marking the completion of first five weeks session of camp.

Among the 163 boys attending from all over the Eastern United States and one from Alaska, Cliff Collins received the trophy in his age group for best all-around camper, which was judged on attitude, cooperation, sportsmanship and life. Jim Ludlow and Skipper Schoepel received the title of Little Chief. There were also many awards to Belle Glade boys for swimming, archery, riflery, basketball and other sports.

At midnight after the Council Ring Monday night, 20 Sioux and Choctaw boys were led out of their cabins and instructed as to little chief tests. Only four candidates survived the tests. The boys, outstanding in their campers, after being awakened quietly in their cabins, gathered at Rogers' Retreat and were given a flashlight, a knife and 2 matches each. They found a spot on the Catawba Trail where each was to build a fire and keep it blazing all night. Each man had an hour in which to use the first match and it failed another 30 minutes in which to light the fire with the second match.

Those who survived the trail ran to the top of Mt. Kittitama, where Pastor Fred Richards spoke to them in a sunrise service. Back of camp, the remaining Little Chief hopefuls were given a 500 word essay on the subject "What Camp Ridgecrest Means to Me," and helped present Little Chiefs in varied work. Perhaps the toughest requirement was that none of them say a word all day. They were not allowed to speak until the Faggett Service. A quote from the "Ridgecrest Redskin" (the camp paper) was "Running up Kittitama was the hardest part of the Little Chief testing," says Jim Ludlow. "Keeping

Relative Of Mrs. Steele Killed in Explosion

Mrs. Rose Steele arrived at West Palm Beach Airport Friday, flying back from Glenn Allen, Illinois, a suburb of Chicago, where she was called by the death of her brother-in-law, George Christianson, three weeks ago. Mr. Christianson, who was planning engineer for a sheet metal company was critically injured in an unusual accident when an overloaded fire extinguisher which had been inspected, exploded. He lived only 45 minutes.

Mr. and Mrs. Steele had visited her sister and brother-in-law and also Mr. Steele's relatives in Alabama only a week before and had returned home when she received word of Mr. Christianson's accident. The accident of which only one other of its kind has ever been reported was on TV and caused nation-wide mourning.

Stetson's Ranch Style Dormitory

Architect's sketch of one of five new men's small residence halls to be constructed on Stetson University's DeLand campus with a \$550,000 loan from the Community Facilities Administration.

The new housing will be used as regular dormitories for those now living off campus or commuting unreasonable distance and as rental units for men's fraternities. Each unit holds 28 men.

The modern buildings will be of brick and siding with asphalt shingle roofs. The first floor of each unit includes a concrete terrace, a social room, a foyer, and a housemother's apartment. The second floor is made up of 14 double bedrooms, a bathroom, and a trunk storage room. None of the units will face city streets but front on a circular drive. Plenty of parking space will be provided.

Construction will begin as soon as possible, officials said, with the hope that occupancy can begin next summer or fall.

Richard Hood, Winter Haven, son of the Florida director, will be one of the two boys representing the Florida American Legion and Boys State. He served as mayor of Hood City, and member of the House.

The other delegate to Boys Nation is James Webster Gainesville, who was elected state treasurer of FBS.

Alternates, in case these boys can't make it, are Lynnwood Simmons, Plant City, and Frederick Ernest, Ft. Lauderdale.

(Florida's delegates to Boys Nation are chosen each year by a 3-man committee following an interview of several hours, covering 17 youths recommended after five days of observation by the city counselors from each of the mythical "cities.")

C. E. Tesch, executive director of the national Americanism Commission of the American Legion, runs Boys Nation with a small staff.

4-Hers Get "Buggy" Over Insects

Billions of bugs defy man... science

The world of insects remains un conquered by man and science. The challenge is as old as time itself. Locusts, ants and caterpillars mentioned in the Bible written 2,000 years ago are still plagues the Holy Land.

The fact that bugs outnumber people, even in this space age, is reason enough for stepping up biological, chemical and atomic research. The future of our planet may well depend on the results.

The 4-H entomology program is now at its peak. Since 50,000 young bug hunters from coast-to-coast have been trained in the 4-H entomology program sponsored 4-H awards program supervised by the Cooperative Extension Service.

Marking a tendency of oil companies more and more, Humble Oil has opened three new states - Alabama, Georgia and Florida.

Population Growth

(Continued from Page 1)

Due To Outsiders
More Than Births

Florida's population gain during the past ten years was the result of an inflow of residents from other areas at a rate three times as strong as the natural rate from births in the state, the Florida State Chamber of Commerce said yesterday.

"During the decade, Florida gained a total of 2,179,000 new residents, giving the state an officially estimated population of 5,000,000 on July 1 of last year. The net gain from migration accounted for 73 per cent of this figure (1,625,567 persons) and births made up 25 per cent (553,433) of the gain."

The year-to-year increase was valued considerably from the ten year average. During the year July 1, 1950 to July 1, 1951, the total gain was 145,000.

A Public Hearing will be held at 8 p. m.
